

INTRODUCTION TO SPEECH AND HEARING SCIENCE

Week 6 - The Acoustics of Speech Production: Consonants

Objectives

- To explain how consonants are produced
- To describe the acoustics of different consonant features (i.e., place, voicing, and manner)

Readings

Recommended:

Ladefoged, P. (1993). *A Course In Phonetics*. Chapter 3.

Fry, D. B. (1979). *The Physics of Speech*. Chapter 10.

Background:

Ladefoged, P. (1996). *Elements Of Acoustic Phonetics*. Chapter 8.
