

BRITISH JOURNAL OF AUDIOLOGY

An international journal of audiological science and practice

321

Universal neonatal hearing screening – parental attitudes and concern

L. Hergils and Å. Hergils

329

Evidence on the efficacy of insert earphone and sound field VRA with young infants

J. Day, J. Bamford, G. Parry, M. Shepherd and A. Quigley

335

Children's experience of tinnitus

R.C. Kentish, S.R. Crocker and L. McKenna

341

Measurement of the temporal-modulation transfer function for a single listener with cochlear hearing loss and left-hemisphere damage

F. Hescot, C. Lorenzi, X. Debruille and J-F. Camus

353

Speech perception with steeply sloping hearing loss: effects of frequency transposition

H.J. McDermott and M.R. Dean

363

Age-related changes in the visual perception of phonologically significant contrasts

L. Kishon-Rabin and Y. Henkin

375

Insertion gain measurements using two low-powered analogue hearing aids

M. Norman and P. James

379

Acoustic characteristics of reconstructed ear canal after atresia surgery

B. Satar, S Yetişer and Y Özkaptan

383

Book reviews
