

BRITISH JOURNAL OF AUDIOLOGY

An international journal of audiological science and practice

1

Editorial: In with the new
J. Bamford

3

Performance of neonatal and infant hearing screens: sensitivity and specificity
A. Davis, J. Bamford and J. Stevens

17

A study of the application of a frequency transposition hearing system in children
B.M. MacArdle, C. West, J. Bradley, S. Worth, J. Mackenzie and S.C. Bellman

31

Profiles of AEVs for intra- and post-operative integrity test measurements in young children with the Nucleus mini 22 cochlear implant
J. Garnham, J. Marsden and S.M. Mason

43

Evaluation of maximum-likelihood threshold estimation with tone-in-noise masking
R.J. Baker and S. Rosen

53

Bisensory augmentation of complex spoken passages
P. Arnold and J. Oles

59

The impact of information on maternal attitudes towards universal neonatal hearing screening
V. Weichbold, K. Welzl-Mueller and E. Mussbacher

67

The effect of high-pass filtering on TEOAE in 2-month-old infants
J. Kei, C. Flynn, B. McPherson, V. Smyth, S. Latham and J. Loscher

77

Prediction of 8-month MEE from neonatal risk factors and test results in SCBU and full-term babies
M.L. Gliddon and G.J. Sutton

87

The influence of hypothermia on outer hair cells of the cochlea and its efferents
E. Seifert, K. Brand, K. van de Flierdt, M. Hahn, M. Riebandt and A. Lamprecht-Dinnesen

99

Short Paper

The human temporary threshold shift after exposure to 60 minutes' noise in an aerobics class
G. Nassar

103

Static input-output non-linearity as the source of non-linear effects in MLS CEOAEs
S. Kapadia and M.E. Lutman

VOLUME 35.1

FEBRUARY 2001
