

International Journal of Audiology

A continuation of *Audiology*, *British Journal of Audiology* and *Scandinavian Audiology*

Contents

Original Articles

- 151 Does cochlear reimplantation affect speech recognition?
Jafar Hamzavi, Wolf Dieter Baumgartner and Stefan Marcel Pok
- 157 The educational settings of profoundly deaf children with cochlear implants compared with age-matched peers with hearing aids: implications for management
Sue M. Archbold, Thomas P. Nikolopoulos, Mark E. Lutman and Gerard M. O'Donoghue
- 162 A normative study of distortion-product otoacoustic emissions in 6-year-old schoolchildren
Clare O'Rourke, Carlie Driscoll, Joseph Kei and Veronica Smyth
- 170 Epidemiology of the UK population of hearing-impaired children, including characteristics of those with and without cochlear implants—audiology, aetiology, comorbidity and affluence
Heather M. Fortnum, David H. Marshall and A. Quentin Summerfield
- 180 Hearing threshold levels for an otologically unscreened, non-occupationally noise-exposed population in Sweden
Magnus S. K. Johansson and Stig D. Arlinger
- 195 Intensive rehabilitation programmes for deafened men and women: an evaluation study
Katarina Sherbourne, Louise White and Heather Fortnum

Short Communication

- 202 Loudness changes associated with the perception of an auditory after-image
Arnaud Norena, Christophe Micheyl, Stéphane Garnier and Sylviane Chéry-Croze
