

Volume 2, Number 1, March 2001

Contents

I. Poganiatz, I. Nelken, and H. Wagner

Sound-Localization Experiments with Barn Owls in Virtual Space: Influence of Interaural Time Difference on Head-Turning Behavior 1

J. M. Furman and R. H. Schor

Semicircular Canal-Otolith Organ Interaction During Off-Vertical Axis Rotation in Humans 22

D. O. Kim, P. A. Dorn, S. T. Neely, and M. P. Gorga

Adaptation of Distortion Product Otoacoustic Emission in Humans 31

C. Köppl

Tonotopic Projections of the Auditory Nerve to the Cochlear Nucleus Angularis in the Barn Owl 41

C. A. Bauer and T. J. Brozoski

Assessing Tinnitus and Prospective Tinnitus Therapeutics Using a Psychophysical Animal Model 54

R. A. Chole, R. M. Hughes, and B. T. Faddis

Keratin Particle-Induced Osteolysis: A Mouse Model of Inflammatory Bone Remodeling Related to Cholesteatoma 65

A. Schmid-Priscoveanu, A. Böhmer, H. Obzina, and D. Straumann

Caloric and Search-Coil Head-Impulse Testing in Patients after Vestibular Neuritis 72

H. R. Wilkins, J. C. Presson, A. N. Popper, B. M. Ryals, and R. J. Dooling

Hair Cell Death in a Hearing-Deficient Canary 79
