

Homework 6: consonantal allophony

1. Discuss the most likely allophone in RP of /d/ in

gladly
gladder
gladsome
glad|| (i.e. utterance-final)
gladness
bad temper
admiration
Andrew

and of /p/ in

appointed
pride
anticipate
upper
Cypriot
ripe||
collapse
imprecise

2. Transcribe the following words in a slow colloquial style, making a careful distinction in your transcription between syllabic consonants (η , l , m , r) and schwa-consonant sequences ($\text{ə}n$, əl , $\text{ə}m$, ər). (If you think both possibilities are equally likely, transcribe them both. Would the choice between them be affected by the phonetic context?)

hidden
Adam
single
paddle
heavenly
wouldn't
gluttony
carbon
vacant
independent

throttle
fondled
Alan
Euston
Camden
Waterloo
operate
column
memories
colonel
